

NO MORE HAIRY SITUATIONS!

The first and only medically approved hair removal device, certified for personal use at home, is now available in Australia.

Using Intense Pulsed Light (IPL) hair removal technology, the E-One is easy to use, safe, convenient and more cost effective than countless trips to the beautician. The E-One can be used day or night in any room of the house and conforms to the highest safety standards.

Developed and manufactured in France, the E-One is the only hair removal device for home use in the world with a medical grade CE certification and register at the Australian TGA for the treatment of excessive hair growth, meeting global consumer safety,

health and environmental requirements and standards.

The efficiency and safety of the E-One has been evaluated by clinical tests recognised under dermatological control in the laboratory DermExpert in France and has been manufactured with an ISO 13485 and ISO 9001 to ensure the highest sustainable quality. Available in Lime Green, Dark Blue or Dark Pink.
