

## STYLE BITE

**Antipodium's** Ab Fab autumn/winter collection celebrates the work and culture of a group of Aboriginal artists from the remote Yamiji region surrounding Geraldton, Western Australia. The label has collaborated with Barbara Merritt, Manapa Butler, Ruby McIntosh and Roy Merritt to create the exclusive prints and limited edition knitwear around which the collection hinges. The pieces are in store at David Jones Elizabeth Street and Bondi Junction, [antipodium.com](http://antipodium.com).

## VANITY CASE

**E-One hair removal device, \$2,695.** The first and only medically approved hair removal device certified for personal at-home use is now available in Australia. The E-one uses Intense Pulsed Light (IPL) technology, and using the tool is a safe, easy, convenient and cost effective way to remove unwanted hair. Achieve professional results without a salon visit. Plus, enjoy the luxury of being able to go in the sun at any time (up to a four week wait is usually the norm with other laser hair removal treatments). **Visit:** [e-one.com.au](http://e-one.com.au).
